According to an exchange an other effort will be made to locate the lost steamer Brother Jonathan to secure the treasure aboard of her at the time of her wreck off Point St. George, Del Norte county. This time a party has been made up at Requa on the Klamath and will go out in command of Captain Ed. West.

WHARF AND WAVE.

The barkentine S. N. Castle, Captain Hubbard, arrived yester day, 13 days from San Francisco. She brought a general cargo of merchandise and seven passengers. among whom was J. C. White Jr.

The trip down was uneventful. On June 5th John Reid & Co. launched from their Whiteinch Yard, Patrick, the Loch Nevis, a fine steel sailing ship, which will be the largest addition to the fleet of Messrs. Aitken, Lilburn & Co., of the Loch line. The dead-weight capacity is 4000 tons.

The entrance of vessels from foreign ports at the Custom House at San Francisco for the fiscal year just ended numbered 1124. This is a falling off from previous years, as the following figures show: Entries in 1893, 1159; in 1892, 1295; in 1891, 1284.

The Pacific Mail liner Peru recently arrived at San Francisco from the Orient, and during the voyage she came very near having a tragedy similar to the one enacted on the City of Peking. When the steamer was about halfway over on the voyage to San Francisco the Chinese cook and baker had a falling out. Loy, the baker, plunged a bread knite in the cook's abdomen and then cut his own throat. At last accounts both men were alive but were still in a critical condition.

A bill has been introduced into the British Parliament to smend existing Shipping Acts with the object of ensuring that no British ship shall proceed to sea from any port without certificated officers. It provides that British vessels of and over 500 tons shall carry a master and two mates, and of and over 1000 tons a master and three mates, and that British subjects only shall hold certificates of competency. The time in which an appeal from a naval or other court sitting in British possessions may be brought is fixed at twenty-one days after the return to the United Kingdom of the appeallant, and the master is not to be personally liable for the payment of wages. No minor will in future be allowed to own a British ship.

Captain Cotton of the receiving ship Inde-pendence, now at Mare Island Navy Yard, has been chosen. He will join the Philadelphia opon her return to Mare island to be docked and repair ed. detaching Admiral Skerrett as Com- crew died, and his comrades were mander - in - Chief of the Asiatic -quadron if the programme mapped out in the interests of Commodores Fyffe and Erben is carried into effect, as now seems probable. Admiral Skerrett will go on the retired list forthwith to insure the promotion to the rank of Rear-Admiral of Commodore Fyffe before the date of his compulsory retirement on July 26th. As soon as advanced Commodore Fyffe will retire, thus promoting Commodore Stanton, who, in turn, will at once ask to be put on the retired list in order that Commodore Erben may be promoted before Sep tember, when he will be forced off

the active list under the age limit. The effect of these probable chang es would be the promotion of Com modere Meade to the grade of Rear-Admiral and his assignment to the North Atlantic station as commander in chief. Admiral Sterrett's successor on the A-tetic station is likely to he Commidore Carpenter, now on ff-red to Commodor- Kirkland, now in command of the South Atlantic station, and he is expected to accept

SAN FRANCISCO MARKETS.

Extracts From Williams, Dimond & Co.'s Circular.

San Francisco, July 6 - We have no change to note in prices of local sugar market since our last circular. Price for export continues on the basis of 5 cents for granulated. The local trade is completely demoralized on account of the railway strike. Telegrams are continually coming in from the country to the jobbers, who are unable to fill same from lack of transportation Last sales in New York reported by telegraph, 6th inst., 18,000 bags @ 3 16 100.

Tariff The Senate finally passed the Tariff Bill, on the 30th inst., the sugar schedule of which remains the same as advised you in our circular of same as advised you in our circular of May 11, with the exception that the bill will take effect August 1, 1884, instead of January, 1885. The bill now has to go before the House, which reconvenes to ay, and will undoubtedly be at once placed in the hands of the House and Senate Conference Committee, and while it is thought that there will be considerable discussion. there will be considerable discu sion on the main portions of the bill, should it finally pass, it seems probable that a duty will be reimposed on sugar. The amendment to the Section repealing the reciprocity clause of the McKinley law, declaring that the repeal should not be construed to advocate [abrogate?] reciprocal arrangements now in existence, was agreed to and embodied in the bill as it passed the Senate. The probabilities are that the fate of the bill will be defi-nitely settled within the next two or three weeks.

Conservative operators admit that so far as the simple relations of supp y and demand may be concerned, the market for raws has probably dis-counted stimulating effects, and the principal feature now left for consideration is the chance for duty and its extent. At the moment the feeling is strong, with buyers spparently willing to pay former rates, but an advance is generally asked.

Our latest, telegraphic advice from New York to date quotes Cuba centrifuga's 96 deg test at 3 16c. The market looks steady, with improving tendency later London beets, 88 deg. test, 11s 7jd. A TERRIBLE EXPERIENCE.

A Shipwrecked Crew Resort to Cannibalism to Save Life.

Captain Huntley, of the wrecked whaling bark James Allen, is well known in this city, he having paid a number of visits to the port. In speaking of the wreck the Chroni-

The hardships were telling on the crew, and Captain Huntley called for volunteers and started eastward, without a compass or food, By order of Mr. Spooner, I will sell at to get assistance, leaving sixteen men behind. After Huntley's departure the men became disheart- 32 ened, and, as the days passed, gave Orders will follow in a few days up all hope of rescue. One of the too weak to give him burial.

A few days later another died, and the men, unable to resist the temptation any longer, began an awful feast on human fl-sh.

Although the survivors dislike to rehearse the details, yet they admitted to the naval officers that they had eaten nearly all the flesh from one of the corpses and had commenced on another when the revenue cutter Bear returned with Captain Huntley and took them away from the island.

An efficient fly poison, which has the merit of being potennous only to flies, is made of the yolk of an egg, beaten up with a tablespoontul each of ground black pepper and molasses. It should be poured n shallow plates and set about. This is a simple process by which waiting orders.
